

# Techno Commercial Proposal

MVC-CK2606037

## Project Objectives

To redefine indoor living standards by engineering a refined, pollution-free environment through state-of-the-art air filtration technology. Our goal is to deliver world-class indoor air quality that enhances health, comfort, and overall well-being, creating a truly premium and breathable living experience.

## About MeVaChi Solutions

At MeVaChi Solutions, we redefine the standards of indoor living by delivering bespoke air purification systems that seamlessly blend advanced engineering with refined comfort. Our approach is rooted in the understanding that true luxury is not just seen but experienced through the quality of the air you breathe.

Every solution we design is meticulously tailored to the unique character of the space, ensuring the highest level of indoor air purity. Our systems are engineered to eliminate particulate matter, gaseous pollutants, and microbial contaminants, creating an environment that is not only clean, but exceptionally pure and balanced.

Powered by state-of-the-art multi-stage filtration and precision-controlled EC fan technology, our solutions operate with remarkable efficiency, near-silent performance, and optimal energy utilization delivering comfort without compromise.

We focus on creating intelligent systems that adapt to environmental demands while maintaining consistency, longevity, and minimal maintenance. The result is a seamless integration of technology and lifestyle where air quality enhances well-being, supports health, and elevates everyday living.

At MeVaChi, we don't just purify air—we craft environments that embody sophistication, wellness, and a new benchmark of modern luxury living.

## Post-Treatment Air Quality Results

Our solution is designed to deliver a measurable transformation in indoor air quality, aligning with globally recognized health standards and ensuring a superior living environment.

| Parameter         | Outdoor Levels        | Indoor Levels<br>(Post Solution) | Global Benchmarks          |
|-------------------|-----------------------|----------------------------------|----------------------------|
| PM <sub>2.5</sub> | 102 µg/m <sup>3</sup> | ≤ 15 µg/m <sup>3</sup>           | 15 µg/m <sup>3</sup> (WHO) |
| PM <sub>10</sub>  | 152 µg/m <sup>3</sup> | ≤ 45 µg/m <sup>3</sup>           | 45 µg/m <sup>3</sup> (WHO) |
| CO <sub>2</sub>   | 500 ppm               | ≤ 1000 ppm                       | 1000 ppm (ASHRAE)          |

A significant reduction in airborne pollutants, creating a cleaner, healthier, and more refined indoor environment.

## Comprehensive Maintenance & Care (CMC)

To ensure consistent performance and long-term reliability, our solutions are supported by a dedicated maintenance program designed for complete peace of mind.

- Includes 6–8 scheduled service visits annually, with filter replacements carried out as required
- End-to-end system care covering unit maintenance, duct cleaning, and performance optimization
- Continuous monitoring and fine-tuning by our expert team to maintain optimal indoor air quality at all times

A seamless, worry-free experience—ensuring your indoor environment remains consistently clean, healthy, and efficient.

## Project Configuration

- Type A: 1300, 1500 and 1700 sq. ft. apartments.
- Type B: 2400 sq. ft. apartments.

## About the site

- Total Area (sq. ft.): 18,04,000 sq. ft. (approx.)

## Our Recommendations

Based on our assessment and the total area of the premises, we recommend installing “**One thousand forty**” MVC Filtration Units for Type-A Apartments and “**One hundred forty**” MVC Filtration Units for Type-B Apartments.

| Type of Unit         | Super Area  | Quantity     |
|----------------------|-------------|--------------|
| MVC Filtration Units | 1300 sq. ft | 600          |
| MVC Filtration Units | 1500 sq. ft | 300          |
| MVC Filtration Units | 1700 sq. ft | 140          |
| MVC Filtration Units | 2400 sq. ft | 140          |
| <b>Total</b>         | <b>-</b>    | <b>1,180</b> |

We believe that with this installation, we can elevate the indoor air quality to the highest global standards. It is important to note that these observations are provisional and subject to modification. The addition of any units beyond the preliminary assessment will incur extra charges.

## Commercial Proposal

| S. No. | Description                         | Super Area                                           | Quantity | Rate (Rs.) | Amount (Rs.)        |
|--------|-------------------------------------|------------------------------------------------------|----------|------------|---------------------|
| 1      | MVC Filtration Unit                 | 1300 sq. ft                                          | 600      | 95,000     | 5,70,00,000         |
| 2      | MVC Filtration Unit                 | 1500 sq. ft                                          | 300      | 95,000     | 2,85,00,000         |
| 3      | MVC Filtration Unit                 | 1700 sq. ft                                          | 140      | 95,000     | 1,33,00,000         |
| 4      | MVC Filtration Unit                 | 2400 sq. ft                                          | 140      | 1,05,000   | 1,47,00,000         |
| 5      | CMC (2 <sup>nd</sup> yr.)           | -                                                    | 1,180    | 20,000     | -                   |
| 6      | Installation and Onboarding Charges | -                                                    | 1,180    | 7,500      | 88,50,000           |
|        | <b>Total</b>                        | <b>Twelve crore twenty-three lakh fifty thousand</b> |          |            | <b>12,23,50,000</b> |

\*GST @ 18% shall be charged extra as applicable.

## Note:

- CMC will include 6 – 8 visits, including filter change as required.
- CMC will be charged from the second year onwards at the rate of INR 20,000 per unit.
- The client shall ensure provision of a suitable electrical outlet for the system.
- PVC piping, if required, will be executed by the client through their appointed contractor, under our technical guidance and supervision, and is not included in our scope.
- All core cutting activities will be executed by the client or their designated contractor under our supervision.
- Builder to provide electrical points, water connections, drainage, access and completed civil infrastructure.

---

## **Warranty & AMC**

One-year comprehensive maintenance included. AMC thereafter at ₹20,000 per annum per unit, subject to annual revision.

## **Scope Exclusions**

Core cutting, civil work, plumbing modifications, electrical modifications, waterproofing restoration, structural changes, approvals and permits are excluded.

## **Sample Flat Policy**

Sample flats will be billed separately and adjusted against the first project invoice upon award and receipt of booking advance.

## **Minimum Quantity Commitment**

Pricing is based on a minimum commitment of 1,000 units. MeVaChi reserves the right to revise pricing if confirmed quantities fall below this threshold.

## **Raw Material Escalation Clause**

If key raw materials/components increase by more than 5%, MeVaChi may revise prices for pending deliveries.

## **Annual Release Escalation Matrix**

Quoted prices apply to releases within 12 months. Deliveries beyond 12 months may be revised annually based on material, labour and logistics inflation.

## **Quantity Variation Clause**

If actual quantities vary by more than 10% from projected quantities, commercial terms may be reviewed.

## **Limitation of Liability**

Total liability shall not exceed the value of equipment supplied.

## **Acceptance**

Authorized signatory section for both parties.

## Payment Details

**Account Name** MeVaChi Solutions

**Bank** HDFC Bank, Shivalik Branch, Delhi

**Account Number** 50200081152589

**IFSC Code** HDFC0004026

**GSTIN** 09AOBPK8384E1ZQ

## Payment Terms & Conditions

- 20% advance upon order confirmation.  
50% advance before production/procurement.  
30% before dispatch.
- Mode of Payment: All payments shall be made in favor of *MeVaChi Solutions* via bank transfer.
- Taxes: Applicable taxes (GST) will be charged extra, as per prevailing regulations.
- Scope Variations: Any additional work or deviation from the defined scope shall be charged separately, based on mutual agreement.
- Validity: This proposal is valid for a period of 90 days from the date of issuance.
